

Micro Track

LED track lighting system

RADIANT

Micro Track LED track lighting system

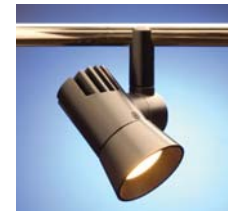

The Radiant LED Micro-Track is one of the smallest section low voltage track systems available and is designed for use in retail display cabinets, museums and residential lighting applications.

The energy efficiency of the LEDs used in the Radiant Micro Track system is more than three times that of LV halogen lamps. Efficiency varies with colour temperature.

With a working life of 50,000 hours the Radiant LED spotlights eliminate the cost and security issues of replacing halogen lamps.

The light output from the high power LEDs used for Radiant LED spotlights contains very little heat and UV so this system is ideal for the illumination of sensitive materials including;

Jewellery
Watches
Leather goods
Silks
Cosmetics

Cone LED spotlight
Track mounted
1 X 3.5 Watt Citizen or Sharp LED array
RAD LED SPCO CIT LH

Integral constant current driver
12 Volt DC supply
Changeable lenses or reflectors
Satin black or white finish standard
other RAL colours available

Ribbed LED spotlight
Track mounted
1 X 3.5 Watt Citizen or Sharp LED array
RAD LED SPR CIT LH

Integral constant current driver
12 Volt DC supply
Changeable lenses or reflectors
Satin black or white finish standard
other RAL colours available

Soraa Snap MR 16 spotlight
MICRO TRACK MR 16 SNAP

Designed to work with Soraa Snap system MR 16 lamps and magnetic accessories including honeycomb louvre, beam shaping optics and colour temperature filters.

 New product

Micro Track Nano LED spotlight
Track mounted
1 x 2 Watt Cree XPE or XPG LED

MICRO TRACK NANO

Integral constant current driver
12 Volt DC supply
Various optics available- changeable on-site

 New product

Micro Track
Power Feed
Flexible connector

Power feed
3mtr cable
RADMICRO JN

Flexible connector
150mm
RADMICRO PWR FDB

In line connectors
Straight and L shape

RADMICRO INC ST
RADMICRO INC L

25 Amp rating

Cone LED spotlight
Surface mounted
1 X 3.5 Watt Citizen or Sharp LED array
RAD LED SPR CIT LH SM

Remote constant current driver
not included
Changeable lenses or reflectors
Satin black or white finish standard
other RAL colours available

Ribbed LED spotlight
Surface mounted
1 X 3.5 Watt Citizen or Sharp LED array
RAD LED SPR CIT LH SM

Remote constant current driver
not included
Changeable lenses or reflectors
Satin black or white finish standard
other RAL colours available

60 mm narrow beam
LED spotlight
Track or surface mounted

1 x Cree XR E LED
RAD LED SP50N
for Surface Mounted - add SM
for Warm White - add WW
for Cool White - add CW

Integral constant current driver
12 Volt DC supply
Satin black finish standard

Micro Track
Curved track

Micro Track
RAD LEDMICRO

300 mm length - add 01
600 mm length - add 02
1200 mm length - add 04

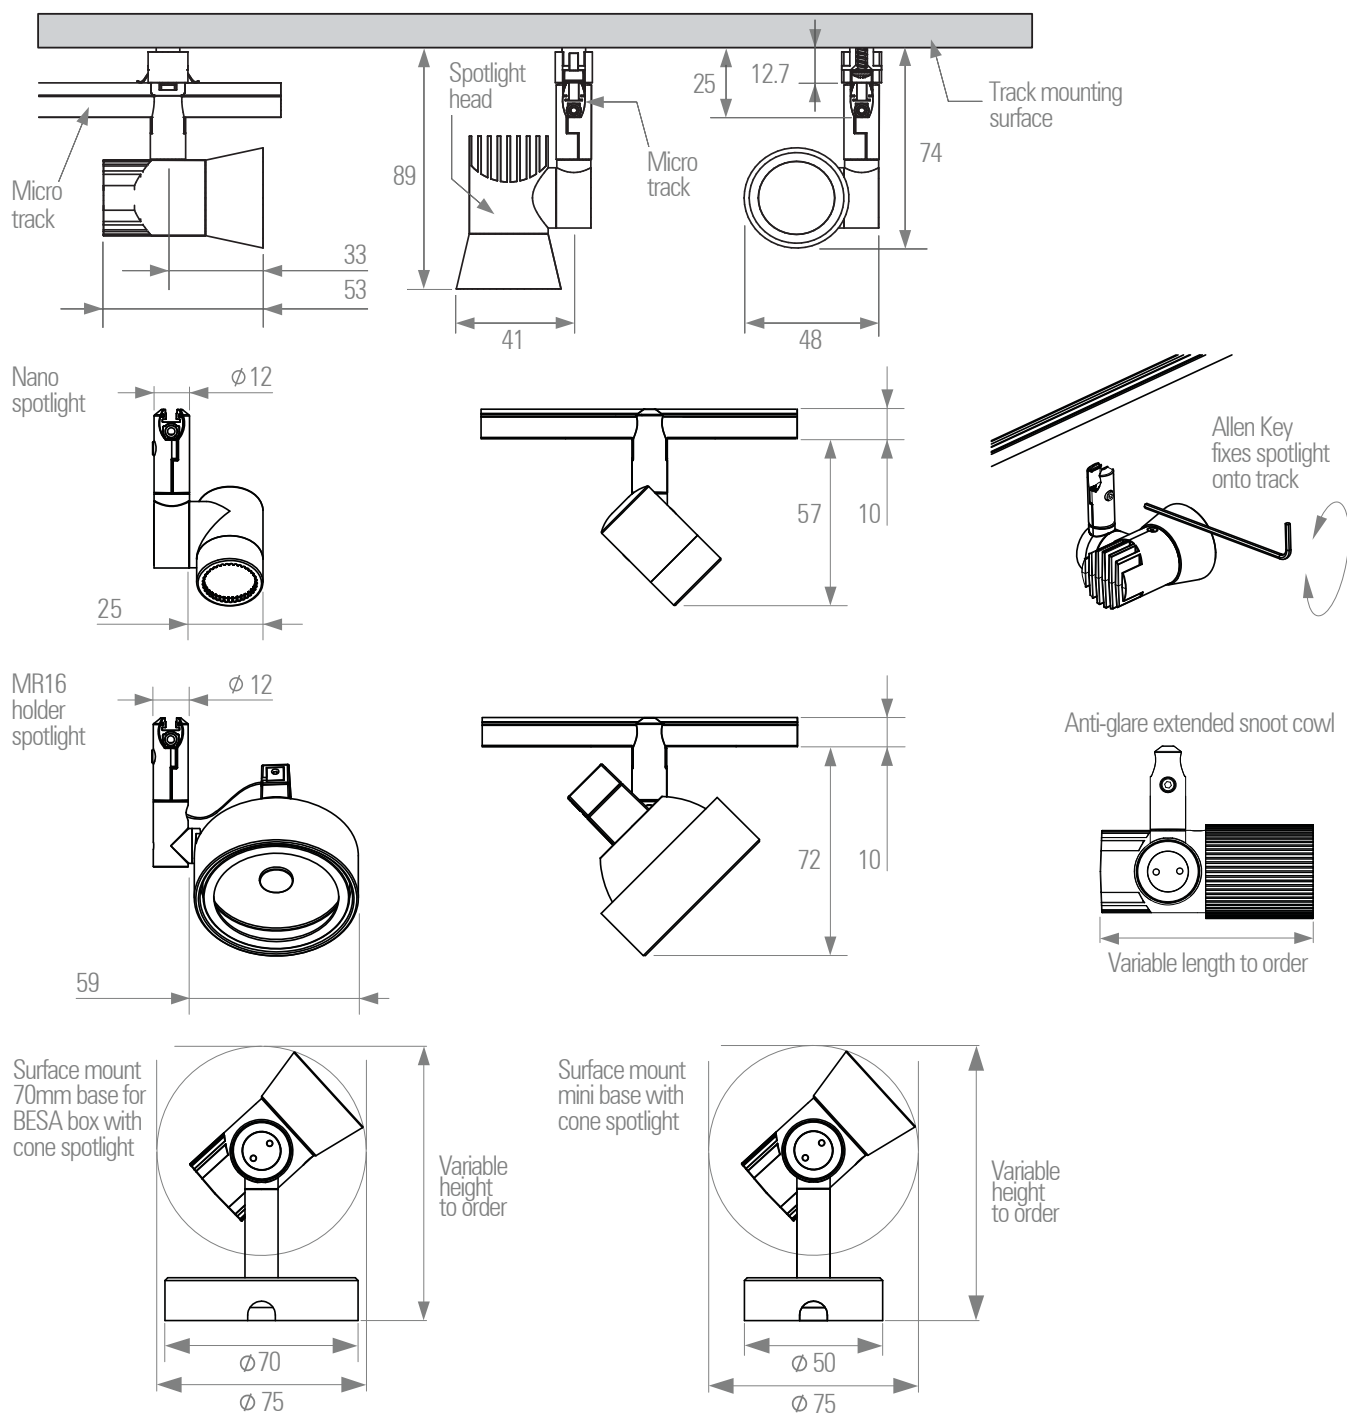

Light Nickel finish - add NKLL
Dark Chrome finish - add NKLD

Mounting clips RADMICRO MCL
End cap RADMICRO EC

Micro Track optics

Various lenses and
honeycomb louvre

Create an order-code by selecting one option from each column in the table below.
eg. MICROTRACK Cone . IP20 . 3.5 . 1000mm . 27K . CRI 80 . Track . End . Black , Chrome .

| Product Code | IP | Watts per spotlight | Length of track (mm) | Colour Temp. (K) | CRI | Optics | Bracket Type | Feed | Finish |
|-------------------|----|----------------------------|----------------------|--|----------|--|---------------------|------|--|
| MICROTRACK-Cone | 20 | 3.5 | 200mm to 1,800mm | 27=2,700k 30=3,000k 35=3,500k 40=4,000k 45=4,500k 50=5,000k | 80 90 | Refer to Radiant and Soraa data sheets | Surface mount Track | End | Spotlight: Black White Any RAL colour |
| MICROTRACK-Ribbed | | 3.5 | | | | | | | |
| SORAA SNAP | | Refer to Soraa data sheets | Increments of 100mm | | | | | | Track: Light nickel Dark chrome |
| NANO | | 2 | | | | | | | |
