

VOICE - CASAMBI - GATEWAY

The X Moment is a smart but tiny gateway between Amzon's ALEXA and a Casambi network.

Up to 20 individually defined verbal commands allow to activate corresponding Casambi scenes, controlling any kind of Casambi-ready devices. Control your lights and blinds, switch from a bright and stimulating work environment to a relaxing light atmosphere in the evening hours just by means of your voice.

The voice casambi voice gateway with which you can control every light, light group or casambi-capable consumer - regardless of the manufacturer - with your individually created voice commands. Use your voice to control your entire house with voice commands and the X MOMENT Voice-Casambi voice gateway.

Not only does it turn the light off and on, the X MOMENT also understands

TheXMOMENT, the voice casambi voice gateway, controls from 4 to 20 voice commands depending on the model.

The installation requires no wiring except for a 5 V power supply (e.g. cell phone power supply) and can be placed anywhere in the WLAN reception area. The X MOMENT signals all WiFi operating states and voice recognition commands via a colored LED-X illumination. From now on, you can conveniently

estol X MOMENT is available as 4-8-12-16-20
