
$1 \times$ RGBW LED array with asymmetric white reflector per module
Modular, 3D flexible LED linear lighting system

## Product description:

For use in exterior lighting applications where the building surfaces are non linear with curved profiles

Each module - $4 x$ Luxeon Z or C LEDs
High efficiency asymmetric white reflector
Up to 4.5 Watts per 100 mm module. Up to 48 V DC supply
Flexible in 3 dimensions - Articulated ball-joint system between modules
LED pitch is maintained between the modules
Side, back and end power feed options - continuous lighting between strips Integral LV constant current driver or remote Eldoled 4 Channel DMX driver 16 Amp IP67 connectors join strips together on-site

Remote DMX / DALI controller can be located up to 50 mtrs from the LED system Satin black, satin white or any RAL paint colour finish

Custom lengths based on a 100 mm module up to 2 mtrs
Various mounting options and bracket types are available

## 3D LED Flex system 40 RGBW IP66

$1 \times$ RGBW LED array with asymmetric white reflector per module Modular, 3D flexible LED linear lighting system

Standard minimum bend radii:
Custom ball-joint and brackets (to order) can give different bend radii where needed
