# RADIANT
ARCHITECTURAL LIGHTING

# 3D LED Flex system 40 RGBW IP20
1 x RGBW LED array with colour-blending lens per module

Modular, 3D flexible LED linear lighting system

Nominal 100mm module length

Custom lengths up to 2mtrs based on a nominal 100mm module length

63 Ø   56   48   100

Standard minimum bend radii:

Custom ball-joint and brackets (to order) can give different bend radii where needed

R 423   R 200   R 160

1 x RGBW LED array with Gaggione colour-blending lens per module

Modular, 3D flexible LED linear lighting system

Product description:

For use in interior lighting applications where the building surfaces are non linear with curved profiles

Each module - 4 x Luxeon Z or C LEDs, with a highly efficient colour-blending Gaggione lens

Up to 4.5 Watts per 100mm module. Up to 48 V DC supply

Flexible in 3 dimensions - Articulated ball-joint system between modules

LED pitch is maintained between the modules

Side, back and end power feed options - continuous lighting between strips

Integral LV constant current driver or remote Eldoled 4 Channel DMX driver

16 Amp IP20 connectors join strips together on-site

Remote DMX / DALI controller can be located up to 50 mtrs from the LED system

Satin black, satin white or any RAL paint colour finish

Custom lengths based on a 100 mm module up to 2 mtrs

Various mounting options and bracket types are available

Standard adjustable angle bracket:

110   96   100

Anti-glare snoot:

Variable angle to order

Variable height to order

EN 60598   CE
