Gear Type Remote
Accessories Snoots | Louvres | Lenses
Weight AL - 45g | RB - 115g

STANDARD ROTOR

BASIS TRACK ROTOR

The Rotor luminaire was designed primarily for the Basis Track system. Gold plated sprung sockets for the lamp pins provide excellent electrical connection, and the innovative lockable design allows for full adjustability. Machined from aluminium, Rotor is available as standard in brushed aluminium.

The jack plug system allows the luminaires to be easily removed for cleaning or relamping. The luminaires click into the jack plug socket, the threaded jacket then screws into position to lock the connection in place. Once fixed, the luminaires are free to rotate or alternatively, can be secured in place using two locking pins.

Notes

For Rotor snoots & accessory holders please see spec sheet 940.
 For Rotor accessories please see spec sheet 900.
 For Rotor XL please see spec sheet 138-400.
