USER INSTRUCTIONS

UNLOCKING

1. Locking device activated once assembled

2. Identify locking tab

3. Bend locking tab inwards with screwdriver

4. Unscrew body from cap

LOCKING

CAUTION: After terminating and assembling your bulb holder, the locking mechanism may need re-activating:

2. Bend locking tab outwards using screwdriver

TOOLS REQUIRED

Cord grip grub screw
Hooked grub screw
Terminals
4mm flat head screwdriver
3mm flat head screwdriver
3mm flat head screwdriver

INSTALLATION NOTES

• We recommend using ferrules with crimping pliers to crimp exposed stranded conductors. It's simpler, neater and safer

WIRING DIAGRAM

- Strip insulation from end appropriate to cable type and/or ferrules
- Firmly secure stripped cables in terminalsWARNING: There should be no loose copper strands
- 3. Align earth tag with notches on cap
- Secure grub screw (or suitable alternative cable restraint)

Designed, made & tested in the UK to BS EN 60238 Revision 1603
