TRAY

WEB PIN 535

GENERAL SPECIFICATION

Product overview:

Tray portrays a picture frame design. Our intention was to evoke the idea of empty picture frames, characterized by a similar concave design, for use in high-end architectural environments. Tray is a fresh contemporary alternative to traditional lightbox style fixtures. With sloped back and side surfaces, Tray creates depth when viewed from non-frontal angles. Tray Wall features reduced lumen packages for optomized visual comfort.

Test switch fits a single gang box (not supplied).
