FEATURES

Physical

HL-ART-3020-WHT is a specification-grade, direct-view, fixed or flexible LED system for outdoor and indoor architectural delineation and special lighting effects. Featuring GVA factory engineered aluminum profiles and mounting options, installable with a maximum vertical bend radius of 150mm / 5.91" with applicable profile selection.

Electronics are encapsulated by a high-quality Dow silicone, using a fully automated co-extrusion technology.

IP67 protection, superior heat management and resistance from chemicals and UV.

Optics & Electronics

A premium selection of LEDs is used with 3-step micro-binning and CRI 90+ guaranteeing consistency and high quality of light.

Constant current integrated circuit design ensures uniformed light intensity along the entire length of luminaire.

Fully dimmable with specified LED drivers, supporting 0-10V and DALI dimming protocols.

Customization

Cut lengths and terminations are done at GVA factory to ensure IP rating, reliability and to maintain a sleek luminaire form factor by avoiding bulky DIY end caps. Life Cycle

Long lifetime expectancy of L70B10 > 54,000 hours with five-year limited warranty

PRODUCT CONFIGURATION

1. Standard unit of length is in millimeters. Lengths in inches and feet is calculated from millimeters.

2. See Maximum run lengths table on page 3

3. Due to tolerances of LED binning and production processes, CCT values can vary up to +5%.

Field alterations will void factory warranty
